SECOND QUARTER 2023

Revision of
contribution
increases effective
1 July 2023.

LETTER FROM THE PRINCIPAL OFFICER

The Board of Trustees, in conjunction with Scheme Management and the Scheme's actuaries, reviewed the Scheme's financial position during the first quarter of 2023 and confirms that the Scheme's contributions will be increased by 6.5% on the Imperial Motus Med Health Plan and an average of 5.5% on the Imperial Motus Med Budget Plan with effect from 1 July 2023.

In an environment where core inflation increases caught the market consensus by surprise and medical aid contribution inflation rose from 4.8% year-on-year in January to 7.5% year-on-year in February and most medical schemes implemented similar or higher contribution increases, it is pleasing that your Scheme was able to limit increases to well below these inflationary numbers.

In addition, the income categories, according to which your contributions are determined, will be increased by 6% for both the Imperial Motus Med Health and Budget Plans with effect from 1 July 2023. This should prevent members from being pushed into higher income categories due to annual salary increases.

Scheme Management is confident that Imperial Motus Med continues to offer better value for money compared to similar schemes in the industry.

The tables overleaf reflect the new contributions per income category and family composition.

Yours faithfully
Fred Meier
Principal Officer
Imperial Motus Med
